

CHALLAPALLI REVANTH TARUN

Python | HTML | CSS | SQL

Tadepalligudem, Andhra Pradesh | revanthtarun06@gmail.com | +91 7013483632

PROFESSIONAL SUMMARY

Computer Science (AI & ML) undergraduate with practical experience in Artificial Intelligence, Data Science, Machine Learning. Developed AI applications for hand gesture recognition and human emotion detection using computer vision and database technologies. Strong knowledge of Python, SQL, and data analysis. Eager to contribute to AI and Data Science projects in a collaborative and innovative environment.

EDUCATION

SASI INSTITUTE OF TECHNOLOGY [Bachelor of Technology - CSM] - CGPA: 7.8/10	Tadepalligudem, AP 2023 - 2027 (Pursing)
MASTER MINDS JUNIOR COLLEGE [Board of Intermediate - MEC] - 750/1000	Guntur, AP 2020 - 2022
Sasi EM High school [Secondary School Certificate] - 592/600	Tadepalligudem, AP 2019 - 2020

Work Experience/PROJECTS

Human Emotion Detection System

- Developed a Human Emotion Detection web application using HTML, CSS, JavaScript, and AI-based facial emotion recognition.
- Built a responsive user interface for real-time emotion detection and analysis.
- Integrated MongoDB Atlas and SQL Server for secure storage of user data, emotion records, and application logs.
- Designed an efficient database structure to manage user profiles, emotion history, and analytics.

TECHNICAL SKILLS

- Languages:** Python, HTML5, CSS
- Developer Tools:** VS Code
- Tools:** MS Word, MS Excel, PowerPoint
- Concepts:** Artificial Intelligence, Machine Learning, Computer Vision, Data Science

CERTIFICATIONS

- Internet Of Thing 4.0** | NPTEL (National Programme on Technology Enhanced Learning)
- Full Stack Development With PYTHON** (MAY 2025)

ACHIEVEMENTS

- Achieved **high emotion detection accuracy** using facial expression recognition with optimized processing techniques.
- Successfully integrated **both MongoDB Atlas and SQL Server**, enabling reliable and scalable data management.
- Developed a **responsive and user-friendly interface** with real-time emotion analysis, improving user experience and system performance.
